VOLUME XXVI

Excellence Since 1991

Our commitment to you is that our products are the best, the very best and nothing but the best. It's the reason that our gear is the choice of top players and equipment managers at every level of the game – safety, quality and innovation. Innovation doesn't just happen; it is the result of hard work. Innovation always stands out and finds its way to the top. Years of testing and sharing information with equipment managers, players and even NASA engineers have led to SportStar's ChinStraps. They're more comfortable, more versatile, and many times more protective than the next best on the market. You'll find SportStar products at the very top of the game in every sport we serve...the Super Bowl, the Stanley Cup, the World Series and the BCS Championship Series. From Pop Warner to Heisman winners, Super Bowl and League MVPs, SportStar is the choice of champions.

SportStar products are Lab Tested – Player Approved.

Element Labs has been in business for more than 200 years and has over 270 worldwide locations.

The Leader in Chinstrap Technology and Protection

SportStar was the first to develop a chin strap designed to deliver maximum protection and comfort. We began with the help of NASA engineers and input from NFL equipment managers. Over the years our chinstrap and its components have seen *hundreds* of refinements and improvements.

Our GelPad – introduced over 25 years ago– has hydraulic action designed to disperse energy.

Our medical grade foam delivers a secure fit and comfort.

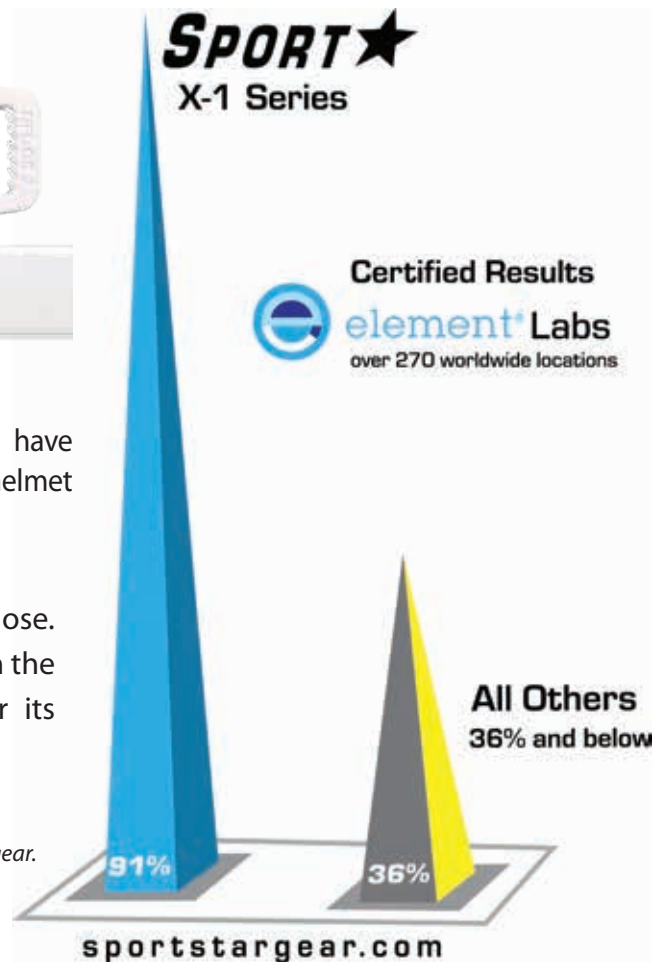

Our Shell is designed to disperse the energy of an impact.

Our connection hardware and straps have proven on field to provide the best helmet security available.

SportStar gear is the very best and nothing else comes close. Because of the superiority of SportStar gear, it is found on the best players and chosen by equipment managers for its outstanding protection, reliability, and comfort.*

* We are the choice of champions. *SportStar does not pay anyone to use our gear.*

ChinStrap Adapter

Used by Pro & College teams

"It's a Snap...to use your SportStar ChinStrap with a SpeedFlex Helmet." Equipment managers say that best of all the player takes the field in the properly fitted chinstrap the way the equipment staff has determined.

*Arnie Alcantar
Football Equipment Coordinator
Oregon State University*

Our secure adapter replaces the SpeedFlex Cam-Loc system, installs in seconds. Use it with a traditional buckle and snap chinstrap.

Available in black, white, red and royal.

Our adapter has been worn by thousands of players who prefer a traditional buckle..
